## Software Engineer

00962770602673 | nour.ham96@gmail.com | Amman, Jordan

### Objective

An Electrical Engineer who likes to write code and automate things, I'm looking to get a role as a software engineer and start my career at an organization where I can apply my skills to serve business needs, and hopefully learn and expand on my experience.

### Skills & Abilities

- Good understanding of object oriented programming.
- Good knowledge in MVC web architecture.
- Good Knowledge in REST API development and consumption.
- Good knowledge in relational databases, mainly MySQL.
- Good knowledge in non-relational databases, mainly MongoDB.
- Good knowledge in ReactJs.
- Building REST APIs utilizing NodeJS and expressJS.
- Good understanding of Front-end development, HTML, CSS, and JavaScript.
- Completed courses and practiced Java, Python, and PHP so I'm comfortable getting into a project that's written in any of these.

### Experience

#### Software Development Intern – Aspire, Jordan [Dec 2022 - March 2023]

- Built UI components using ReactJS.
- Built REST APIs using NodeJS, ExpressJS and MongoDB.
- Built a social media platform where users can create accounts, create posts, comments and follow friends using ReactJs, NodeJs, ExpressJs and MongoDB.

## Education

Al-Balqa' Applied University, Jordan, Bachelor Degree in Electrical Engineering

Graduated with a GPA of 3.39 (Rating: Very Good) also minored in computer science, where I took Programming related courses like C++, Java, Logic and numerical systems.

## Courses

C++ tutorial for complete beginners

Java tutorial for complete beginners

JSP, Servlets and JDBC for Beginners

The web developer bootcamp

Dynamic programming: Learn to solve algorithmic problems & coding challenges

Python mega course: Learn python in 60 days

PHP and MYSQL course

Web App Security/Authentication

## Personal interests

In my free time I like to read, watch anime, sketch and play video games.
